

## INDUSTRY PLENARY SESSION:

### *In silico clinical trials – a disruptive innovation for biomedical industry*

**Thursday, September 6<sup>th</sup> 2018 16:30, Zaragoza (Spain)**

This session targeted at Industry players of the VPH Community but also aimed at academic colleagues to exchange and promote future collaborations towards a new age of personalized digital medicine. Here an overview of the session:

- **The emerging regulatory landscape for in silico methods** – [Tina Morrison](#), Deputy Director, [FDA's Division of Applied Mechanics](#)

- **Tools and services for in silico clinical trials** showcase from the moderated by [Thierry Marchal](#), [Avicenna Alliance](#) Secretary General, including speakers from:

- **In silico Clinical Trials: A vision of the future** by [Marco Viceconti](#), Director of [Insigneo Institute](#) & **Scalability of Computational Medicine applications** by [Peter Coveney](#), [CompBioMed](#)

- **Examples of early applications** [Mark Palmer](#), Senior Principal Scientist of [MEDTRONIC](#)  
Exclusive Sponsor at VPH 2018

Full programme will be detailed soon at [www.vph-conference.org](http://www.vph-conference.org) with other activities from the conference (European calls session for H2020 calls and FP9 prospective, networking opportunities, student activities, etc). VPH Conference in 2018 aims to stand as a unique opportunity to gather the international VPH Community once again, this time under the topic "VPH for In Silico Medicine". If you are interested in joining us, please register here or contact us at [vph2018@unizar.es](mailto:vph2018@unizar.es)  
Looking forward to meeting you there!
